SPECIAL NOTICE!

For GARDEN SEED PRICES write for our
SPECIAL QUOTATIONS

WHAT ABOUT ALFALFA FOR SPRING?

In view of the fact that KANSAS COMMON and the GRIMM varieties of Alfalfa are very scarce and very high in price this year, we suggest that you consider the following origins Which We Offer For Sale:

1. COLORADO— Both are strains of Common Alfalfa which are produced in the same latitude as Kansas Common and are considered as winter hardy, or even more so.
2. UTAH—
3. OKLA. APPROVED—More attractive in price and has been found as winter hardy as Kansas Common in much of the Kansas Common Territory.
4. CERTIFIED BUFFALO—Developed from Kansas Common—makes more rapid recovery after cutting and carries RESISTANCE to BACTERIAL WILT which has destroyed thousands of acres of Kansas Common Alfalfa.
5. CERTIFIED RANGER—Where winter-hardiness of Grimm is desired, Ranger is first choice—has the added advantage of having RESISTANCE to BACTERIAL WILT.
6. ARIZONA—A SOUTHERN STRAIN OF COMMON ALFALFA—Being recommended in many Northern and Central States for short-rotation pastures and green manure crops. Makes more growth first year than do the more commonly used Alfalfas in Northern and Central States.
7. ARGENTINE—Used mostly in Southern States but is being used in the Northern Areas in short-rotation pastures and green manure crops.

SUPPLIES ARE BELOW NORMAL! PRICES COULD GO HIGHER! SAVE! ORDER NOW!
